ABSTRACT OF THE SESSION: MCC in collaboration with Navbharat Memorial Foundation, Jaipur organized '**Innovation Intelligence & Inclusiveness Conference**' on 11th - 12th October 2019.

The conference aims to study the roles and impacts of commerce, management, social sciences and sciences on Triple Bottom Line: 'Profit, People & Planet, and to deliberate on how best can be attained through 'Innovation, Intelligence & Inclusiveness (3I) in particular. Acronym '3I' (Three Eyes) evokes the sense of looking beyond what we can't see in our two eyes. The third eye reminds us to look deeper dimensions of wisdom and humanity. To attain the same, our conference theme is coined as Innovation, Intelligence & Inclusiveness (3I). Innovation is the call of the day to achieve the desired goals in the best possible manner. Intelligence enables us to comprehend the surrounding around us by 'making sense' of things or 'figuring out what to do'. It acts to maximize future freedom of action and also applies to human and non-human (artificial intelligence). Innovation and intelligence foster faster economic development. The success of growth & development should not confine to a few but must percolate to the bottom of the pyramid as a sign of inclusiveness.

The conference will foster discussions among the academicians, management practitioners, consultants, research scholars, and policy-makers across the nation on various issues, challenges and advances in the field of commerce, management, social sciences and sciences. This forum will also facilitate them to present their ideas and research findings related to the 'Innovation, Intelligence & Inclusiveness!'

ABSTRACT OF THE SESSION: MCC organized 'Graphic Designing Through Coral Draw & Photoshop Workshop' on 21th- 22th January, 2020.

The main objective of this workshop is to equip participants with fundamental and advanced graphic design skills using two industry-standard software programs. Over two days, attendees will gain a comprehensive understanding of key design principles such as color theory, typography, composition, and layout. The workshop aims to build proficiency in CorelDraw, focusing on vector graphics, logo design, and complex illustrations. Simultaneously, participants will develop expertise in Adobe Photoshop, learning advanced image editing, photo manipulation, and digital painting techniques. Through hands-on projects and guided practice, attendees will enhance their creative abilities and produce professional-quality designs. By the end of the workshop, participants will have a robust foundation in graphic design, enabling them to create visually compelling and technically sound artwork, and a portfolio showcasing their newly acquired skills.
