Mental Health Awareness Session 27th March 2023

The movie "Bina Phatak Ki Train" tells the poignant story of boys who, feeling sad or hopeless, attempted suicide. After returning to earth from heaven, they observe the profound impact of their actions on their parents and family members. Realizing the pain and suffering caused by their decision, they understand that facing life's challenges is a better choice than resorting to such a drastic and shameful act.

Importance of the Session:

According to the Centers for Disease Control (CDC, 2015), suicide is the second leading cause of death for young people between the ages of 15 and 35, and also for youth aged 10 to 14. Over the past 15 years, the nation has seen a 24% increase in suicide deaths. Data from the 2015 National Youth Risk Behavior Surveillance Survey (YRBSS) indicated that 29.9% of U.S. high school students felt sad or hopeless almost daily for two or more weeks, 17.7% expressed suicidal ideation, and 14.6% had attempted suicide. These alarming statistics highlight the need for greater awareness and support for mental health among students.
