## NEP - 2020 IMPLEMENTATION

The National Education Policy (NEP) 2020 aims to revolutionize Indian education by promoting holistic, multidisciplinary learning, critical thinking, and flexibility in subject choices. It emphasizes technology integration, vocational training, and skill development to bridge education and employment, fostering an inclusive, innovative, and adaptive educational ecosystem.

ShriMahaveer College has taken significant strides in implementing the National Education Policy (NEP) 2020, aimed at transforming higher education in India. The college has embraced the multidisciplinary approach advocated by NEP 2020, fostering an environment where students can explore diverse fields of study. This is achieved by offering flexible course structures and a choice-based credit system, enabling students to tailor their educational pathways.

To enhance the quality of education, ShriMahaveer College has invested in upgrading its infrastructure and adopting technology-driven teaching methodologies. Smart classrooms, digital libraries, and online learning platforms have been integrated to ensure that students have access to cutting-edge resources and tools. Faculty members are encouraged to participate in continuous professional development programs to stay abreast of the latest educational trends and practices.

Furthermore, the college places a strong emphasis on research and innovation, encouraging students and faculty to engage in research projects and collaborations with industry and academia. This aligns with NEP 2020's vision of fostering a research-oriented culture in higher education institutions.

Holistic development is another cornerstone of NEP 2020, and ShriMahaveer College has introduced various extracurricular and co-curricular activities to support this goal. Sports, arts, community service, and skill development programs are actively promoted, ensuring that students develop well-rounded personalities.
