## About the Course

**Course Name: Certificate Course in Web Designing(VAC-305-CA)**

**Course Summary:** Web designing will introduce students to the realm of web design. The first and necessary step for that goal is to understand how HTML works, and then more advanced and complicated structures and concepts of web design, such as CSS and layout control. A series of tasks (website evaluation, website development, reflective report, collaborative website development, website self-assessment), as well as several group activities (discussions, online resource sharing, collaborative work) will help to gain practical experience on web development and a thorough understanding of web design issues.

### Enrollment Criteria:

1. Participants must be interested.
2. Must provide the NOC if from other department.

### Course Outcomes:

1. Students will be able to know how to design a website. How does a website work? How to create and design banners, advertisements, etc. Learning about the tools and techniques of web design covers using software applications.
2. Students will be able to understand how HTML elaborates the general structure of a web page design as well as tags and the concept of HTML files.
3. Students will be able to understand Java Script and Boot Strap logic-based language in programming and interactive websites with cool tabs, sliders, calls to action and other dynamic features.
4. Students will be able to understand graphic designing to create cool graphics for a website. For grasping the concept of graphic design there are a number of software's.

## About the Course

**Course Name: Data Analysis using Spreadsheet (VAC-105-CA)**

**Course Summary:** This course will make a learner to perform Data Analytics using spreadsheets like excel or libre spreadsheet. The course has been designed to prepare a learner for meaningful opportunities in the future with respect to Data Analytics.

The course starts with learning of basic like formulas Sum, Average, Minimum, Maximum, Count, Basic Charts, Filter & Sorting, then it will cover the Advance formula, Subtotal, Text Function, Vlookup, Hlookup, Pivot, Data Validation, Conditional Formatting, Simple IF, Advance If, D Sum, D Max, D Min, D Count, D Count A, Data Visualization and many more. The learners will learn the easiest way to work with lakhs of data with statistical & Mathematical functions that can save hours of time. The course contains all the necessary topics which are most demanded in Government sector/ Academics/ Corporate Industry.

### Enrollment Criteria:

1. Participants must be interested.
2. Must provide the NOC if from other department.

### Course Outcomes:

1. Students will be able to understand and identify the principles of data analysis.
2. Students will be able to understand how to build presentation ready dashboards in Excel.
3. Students will be able to apply analysis techniques to datasets in Excel and become adept at using Excel functions and techniques for analysis.
4. Students will be able to learn how to use Pivot Tables and Pivot Charts to streamline the workflow in Excel
5. Students will be able to use effective design principles when creating and presenting data and learn about the Excel data Model and working with External Databases.

### Course Outcomes & Program Outcomes Mapping:

	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO1 0	PO1 1	PO1 2	PSO 1	PSO 2	PSO 3
