Intrapreneurship: A Power Tool for Employee Innovation

■ Dr. Vaisali Purohit*

Introduction

With the advent of corporate culture all across the globe and in India, entrepreneurship has gained great momentum in the recent times. This has generated intense competition and has initiated the need of developing entrepreneurial employees within the organization for managing innovation and generating competitive advantage. The outcome is the sub-field of entrepreneurship i.e. the concept of intrapreneurship. Intrapreneurship, which is a recent buzzword in the business world calls to draw attention towards its role in augmenting the out of the box thinking level of a firm. The business organizations are fostering the concept of intrapreneurship with the intent of making each employee competent enough to hold the ignition of innovation. Intrapreneurs act as internal entrepreneurs of a company who through their creative thinking and innovative approach develop the long term competitive advantage of the firm.

Intrapreneurship Concept

An Intrapreneurship is someone who acts within some boundaries be it in form of company, building or organization. It is

Contents

1. Introduction to Algorithm and Design

1.1	Characteristics of an Algorithm	2
1.2	Algorithms Designing Techniques	2
1.3	Efficiency of Algorithms	5
1.4	Complexity of Algorithms	5
1.5	Analysing Algorithms	6

Exercise

2. Linear Data Structure

2.1	Classification of Data Structure	19
2.2	Linear Data Structures	20
2.3	Arrays	20
2.4	Stack	31
2.5	Queues	38

Exercise

3. Linked Structure

3.1	Linked List Representation	65
3.2	Single Linked List	66
3.3	Operation on Linked List	67
3.4	Implementing List Operation	67
3.5	Circular Linked List	91
3.6	Doubly Linked List	105

4. Tree Structure

4.1	Introduction	119
4.2	Binary Tree Representations	120
4.3	Tree Terminology	122
4.4	Types of Trees	125
4.5	Binary Search Tree Operations	133
4.6	Implementing the Insert, Delete and Search in Binary Tree Algorithm	136
4.7	Tree Traversals	145
4.8	Huffman's Algorithms	149

Exercise

5. Graph Structure

5.1	Introduction	
5.2	Graph Terminology	156
5.3	Types of Graphs	157
5.4	Graph Representations	161
5.5	Other Graph Representation Technique	165
5.6	Graph Traversals	168
5.7	Floyd Warshals Algorithm	170
5.8	Shortest Path	178
5.9	All Pairs of Shortest Paths	184
5.10	Transitive Closure	185

Exercise

6. Searching and Sorting

6.1	Introduction	190
6.2	Searching	190
6.3	Hashing	195
6.4	Sorting	197
6.5	Efficiency Considerations of Sorting	216
6.6	Time & Space Complexities of Sorting Algorithm	217

Role of Banks in Enhancing Local Manufacturers

Dr. Anupam Jain* & Dr. Vinita Jain**

Abstract

This chapter delves into the pivotal role of banks in fostering and bolstering local manufacturing enterprises within the context of India's dynamic entrepreneurial ecosystem. The chapter explores the multifaceted ways in which banks contribute to the growth, sustainability, and innovation of local manufacturers, thereby propelling India's industrial landscape forward. Through a comprehensive analysis of various banking mechanisms, financial instruments, and support systems, this chapter aims to illuminate the symbiotic relationship between financial institutions and local manufacturers. It also highlights the challenges and opportunities that lie ahead in harnessing the full potential of this partnership.

Introduction

The Indian economy has undergone significant transformations, with local manufacturing emerging as a key driver of economic growth, employment generation, and technological advancement. In this dynamic landscape, the role of banks in nurturing and enhancing local manufacturing enterprises has become indispensable. Banks play a pivotal role in facilitating access to capital, promoting innovation, mitigating risks, and providing a supportive financial ecosystem that enables local manufacturers to flourish.

Access to Capital: One of the primary ways in which banks contribute to enhancing local manufacturing is by providing access to capital. Traditional loans, working capital finance, and trade finance are crucial lifelines that enable manufacturers to invest in technology, upgrade infrastructure, expand production capacities, and explore new markets. Additionally, specialized lending schemes targeted at the manufacturing sector, with favorable interest rates and repayment terms, have the potential to stimulate growth and job creation.
